

COASTAL JIBS

Bike Park Equipment
Summer 2025 • CATALOG

For over 19 years, Coastal Jibs has built a strong reputation within the ski industry. This acquired experience now allows us to take on a new challenge: To offer a complete line of products specifically designed for bike parks and flow trails.

From day one, our constant drive to improve our products and services has never stopped and has helped up develop a large number of satisfied clients. We intend to build on this success with our summer catalog while continuing to exceed your expectations in product quality and safety.

Thanks to everyone involved in the beginning of this great adventure!

At Coastal Jibs, our products reflect our passion for mountain sports. A passion that doesn't quit with the change of seasons.

We see mountain biking as the natural transition from skiing or snowboarding to enjoy our favorite summer playground.

We want to offer you the same fluid feeling, in summer as in winter, on board as on wheels. This catalog reflects that desire and is an innovative step in the history of Coastal Jibs.

QUALITY

At Coastal Jibs, we put our heart and soul into creating a premium quality product. We pay close attention to detail and to the safety of mountain bikers. All of our products are carefully manufactured and inspected in our Sherbrooke (Quebec) workshop to ensure the highest level of quality and safety.

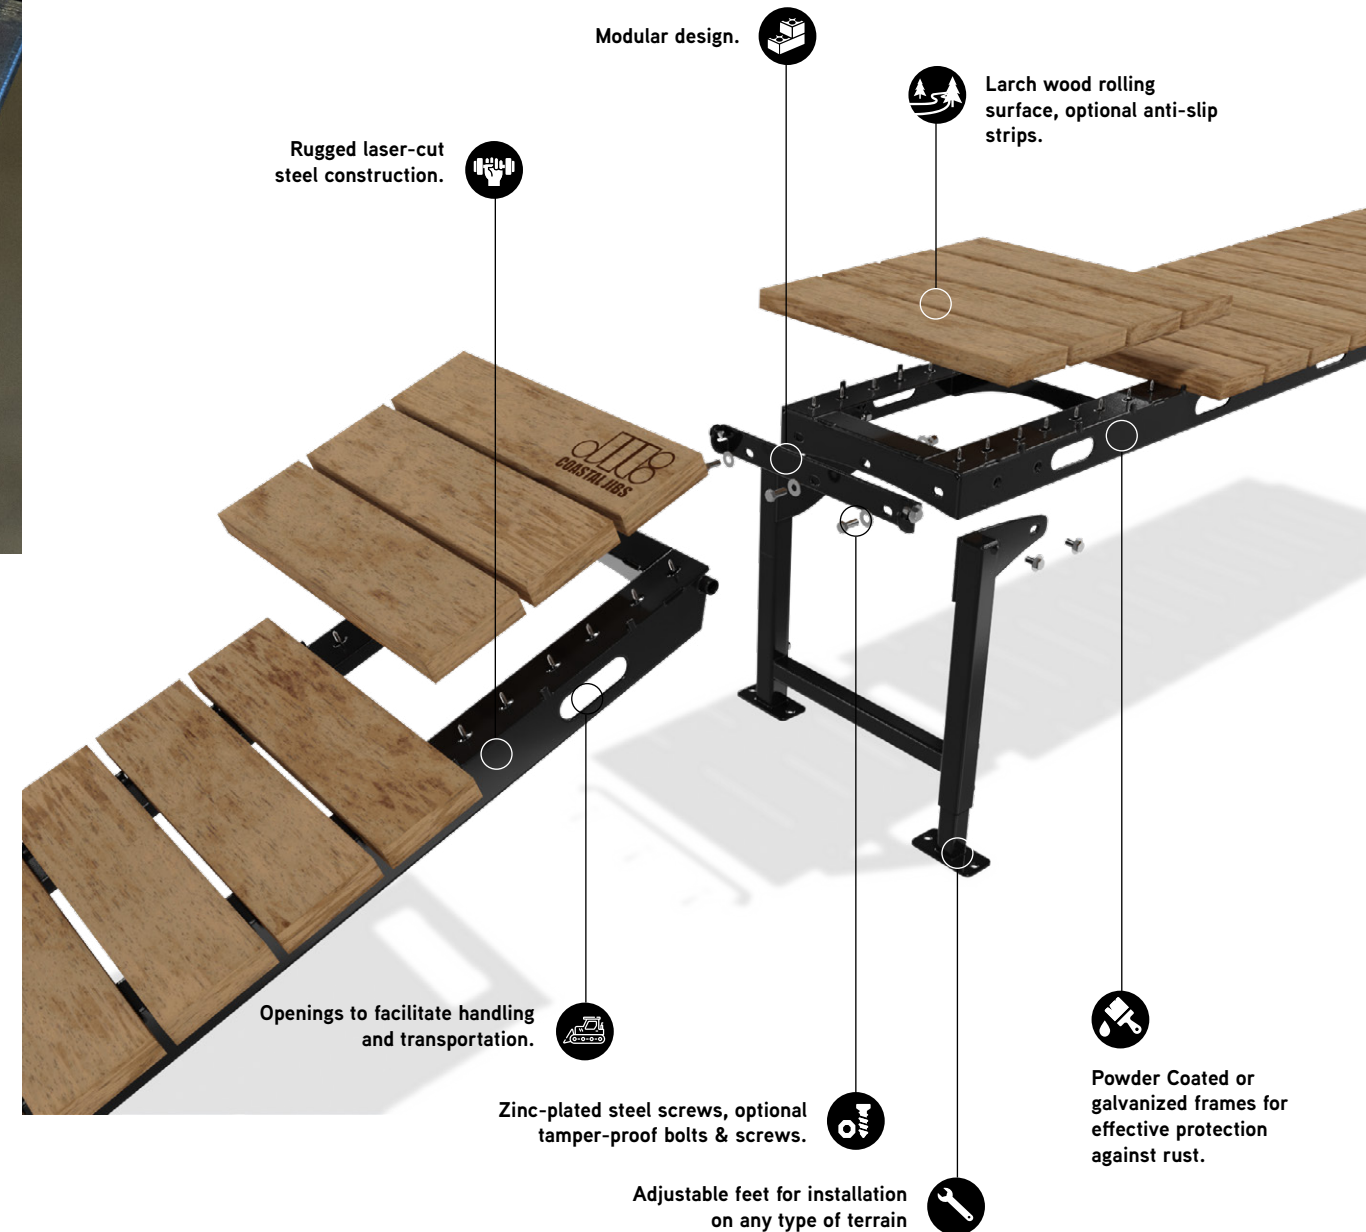

WARRANTY

Coastal Jibs offers a 5-year limited warranty on all of its products.

* This warranty does not apply to any failure, damage or defect caused by the installation, use or maintenance of the product by the buyer, its employees, customers, users, successors or assigns.

TECHNICAL OVERVIEW

Everything is in the details

SKILLS FEATURES

The perfect features for your learning area, suitable for both children and adults.

These features are easy to install and come preassembled. They are often found in the learning area of bike parks, as a compliment to the local skatepark, or even in schoolyards.

Custom sizes available.

MODULAR CONFIGURATION

Let your creativity run free

The features we offer are made of many connectable sections. Feature configuration options are virtually endless.

Since the options are infinite, we have preconfigured “Signature” Features shown on page 16 of this catalog.

Custom designs are also available. Contact us for more information.

For those who want to get creative, the concept is simple:

- Choose the **entry ramp** for your feature
- Choose the **successive sections**
- Choose the **exit ramp** for the feature created

The sections are designed based on 2 dimensions:

- **Height** – 3 options: 12" | 24" | 32"
- **Width** – 4 options: 16" | 24" | 36" | 48"

ENTRY / EXIT RAMPS

CAPTION:

O: Pivot mounted ramp. Simplifies installation and adjustment. It is also easier to maintain the transition between the ground and the ramp when the feature is installed on a dirt surface.

F: Fixed height ramp. These entry ramps are recommended for modules installed on stabilized soil (ex: asphalt, rock dust).

FLAT RAMP °

Length x Height:
3' x 12" | 5' x 24" | 7' x 32"

#RF

FUNNEL RAMP °

Length x Height:
3' x 12" | 5' x 24" | 7' x 32"

#RFU

CURVED RAMP °

Length x Height:
3' x 12" | 5' x 24" | 7' x 32"

#RC

GROUND RAMP F

Length x Height: 1' x 5"
Note: Gives access to a feature installed on the ground.

#RG

ROOFTOP GROUND F

Length x Height:
3' x 12" | 7' x 24" | 10' x 32"

#RTE

SPEED BUMP GROUND F

Length x Height:
5' x 12" | 8' x 24" | 10' x 32"

#SBE

RAINBOW GROUND F

Length x Height:
4' x 12" | 8' x 24" | 10' x 32"

#RBE

BATTLESHIP GROUND F

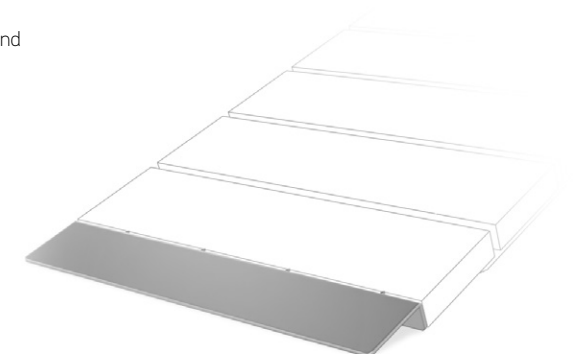

Length x Height:
4' x 12" | 10' x 24" | 12' x 32"

#BAE

OPTION: RAMP ACCESS

Note: Allows for a smooth transition between the ground and the first plank for small wheels.

#RA

SECTIONS

FLAT

Length: 4' | 6' | 8' | 12'

#F

FLAT CURVE

Angle x Length:
30° x 10' | 45° x 10' | 90° x 10'

#FC

BANK TURN

Angle x Length x Incline:
45° x 9' x 12° | 90° x 17' x 20°
Note: Right and left versions available.

#BT

ELBOW

Angle x Length: 30° x 2'

#EL

TOOLS

Trail builders best friends

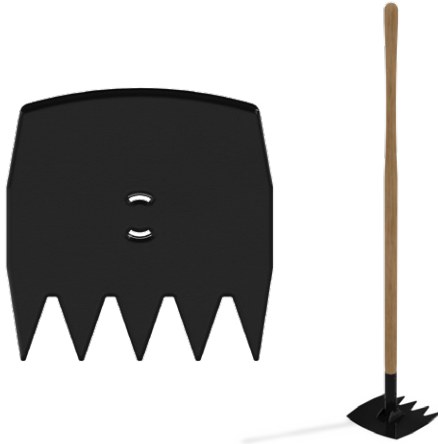

Beaver Tools specializes in the creation, design and manufacturing of trail-building tools.

These are 100% Quebec (Canadian) made products offering extreme durability for working and shaping the terrain.

OG

Width: 9"
Length: 49"

The Swiss Army knife of all tools. Want to carry just one tool? This is the one for you!

AB1

Width: 13"
Length: 49"

A high precision multi-function tool.

BR1

Width: 13 3/4"
Length: 55"

The rake reinvented Beaver-style. No more crooked garden rake teeth. Unbeatable efficiency.

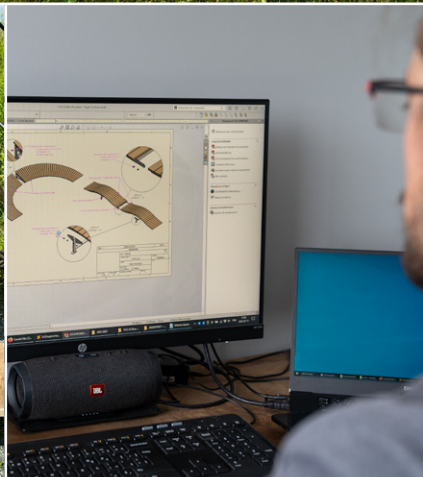

Steel head

All Beaver tools are handcrafted in Quebec, Canada, using special high strength, abrasion resistant and high resiliency steel for unparalleled durability.

Wooden handle

The handle is made of Canadian hardwood for high resistance and shock absorption to the user.

DELIVERY

Coastal Jibs offers delivery at extremely reasonable rates across Canada & U.S., not to mention FREE shipping on orders of at least \$25,000 CAD within a 1500km radius of our headquarters.
